

Developing

the Early Career Teacher Programme 2018-19

Designed to develop and build upon the skills that Early Career Teachers have gained during their ITE and NQT years, this programme will give teachers the opportunity to reflect on their practice and develop their effectiveness in the classroom further.

These six twilight sessions will be applicable to teachers in all phases, including focused sessions for primary and secondary teachers. Each session will provide a valuable opportunity for Early Career Teachers to network with their peers, exchange experiences and share good practice.

School based mentors or teachers with responsibility for new staff are welcome to attend all sessions free of charge.
